materials & specifications.

Wallpaper orders come in rolls (50cm wide x 270cm height) which include the panels numbered one next to each other easy to unpack and install. Beyond the standard panel sizes our team can customize any design according to the client's needs. This is vital for both professionals and companies. Less waste but exact customized measures. Any other height than 270 cm can be proportionally reproduced by our design team to fit any space with artwork from the designers provided to make offers easier to place and faster to be approved.

Endless wallpaper width gives the customer the freedom to apply the designs to any space whereas YO2 designers will supply an individual drawing for any order wider than the displayed making each product unique with no recurrence; creating an innovative system on the visual output. Height can also be customized for any design upon request personalizing each wall covering order.

The wallpapers are produced in The Netherlands, digitally printed on high quality foundation that meets the highest standards of washability and fire resistance with special product features:

- Scratch resistant
- Contract qualities for hotels, restaurants, bars and other commercial use as well as domestic used
- All our wallpapers are certified with BS1, d0 (European) fire certification
- Washable surface
- Excellent image quality
- All designs are possible to manufacture in 9 fantastic qualities
- No minimum order required
- Extra varnishing for greater durability
- Dimensionally stable without stretching or shrinking
- Can be removed in a dry condition for redecoration, provided the appropriate paste has been used
